NORTHERN PROVINCE

STATISTICAL INFORMATION

2018

NORTHERN PROVINCE

**Chief Secretary's Secretariat
Northern Province.**

PREFACE

It is with great pleasure in releasing the "Provincial Statistical Information 2018" of the Northern Province. This is the ninth publication in the series with updated Information.

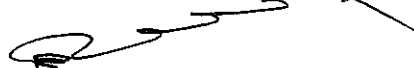

Presently, many rehabilitation and development Projects are carried out in all sectors in the province by the Government, National and International Non-Government Organizations, United Nations Agencies and other Foreign Funding Agencies to uplift the living standard of the people and to achieve self-sufficiency of the Northern Province. Hence, this publication provides basic official statistics and current official information to the Policymakers, Development Practitioners, Researchers and other relevant Authorities.

Northern Province entered into the new era for the implementation of Sustainable Development Goals, aligned with the preparation of the Annual Development Plan, in order to ensure the sustainable development in the Province. Meanwhile, many newfangled National Programmes under the direct monitoring of His. Exc. The President of the Democratic Socialist Republic of Sri Lanka, have been implemented in this province, targeting the Sustainable Development Goals, so as to ensure the development on economic, social and technological fields at provincial level. This publication will essentially assist for the achievement of the National Government's Policies by providing required information.

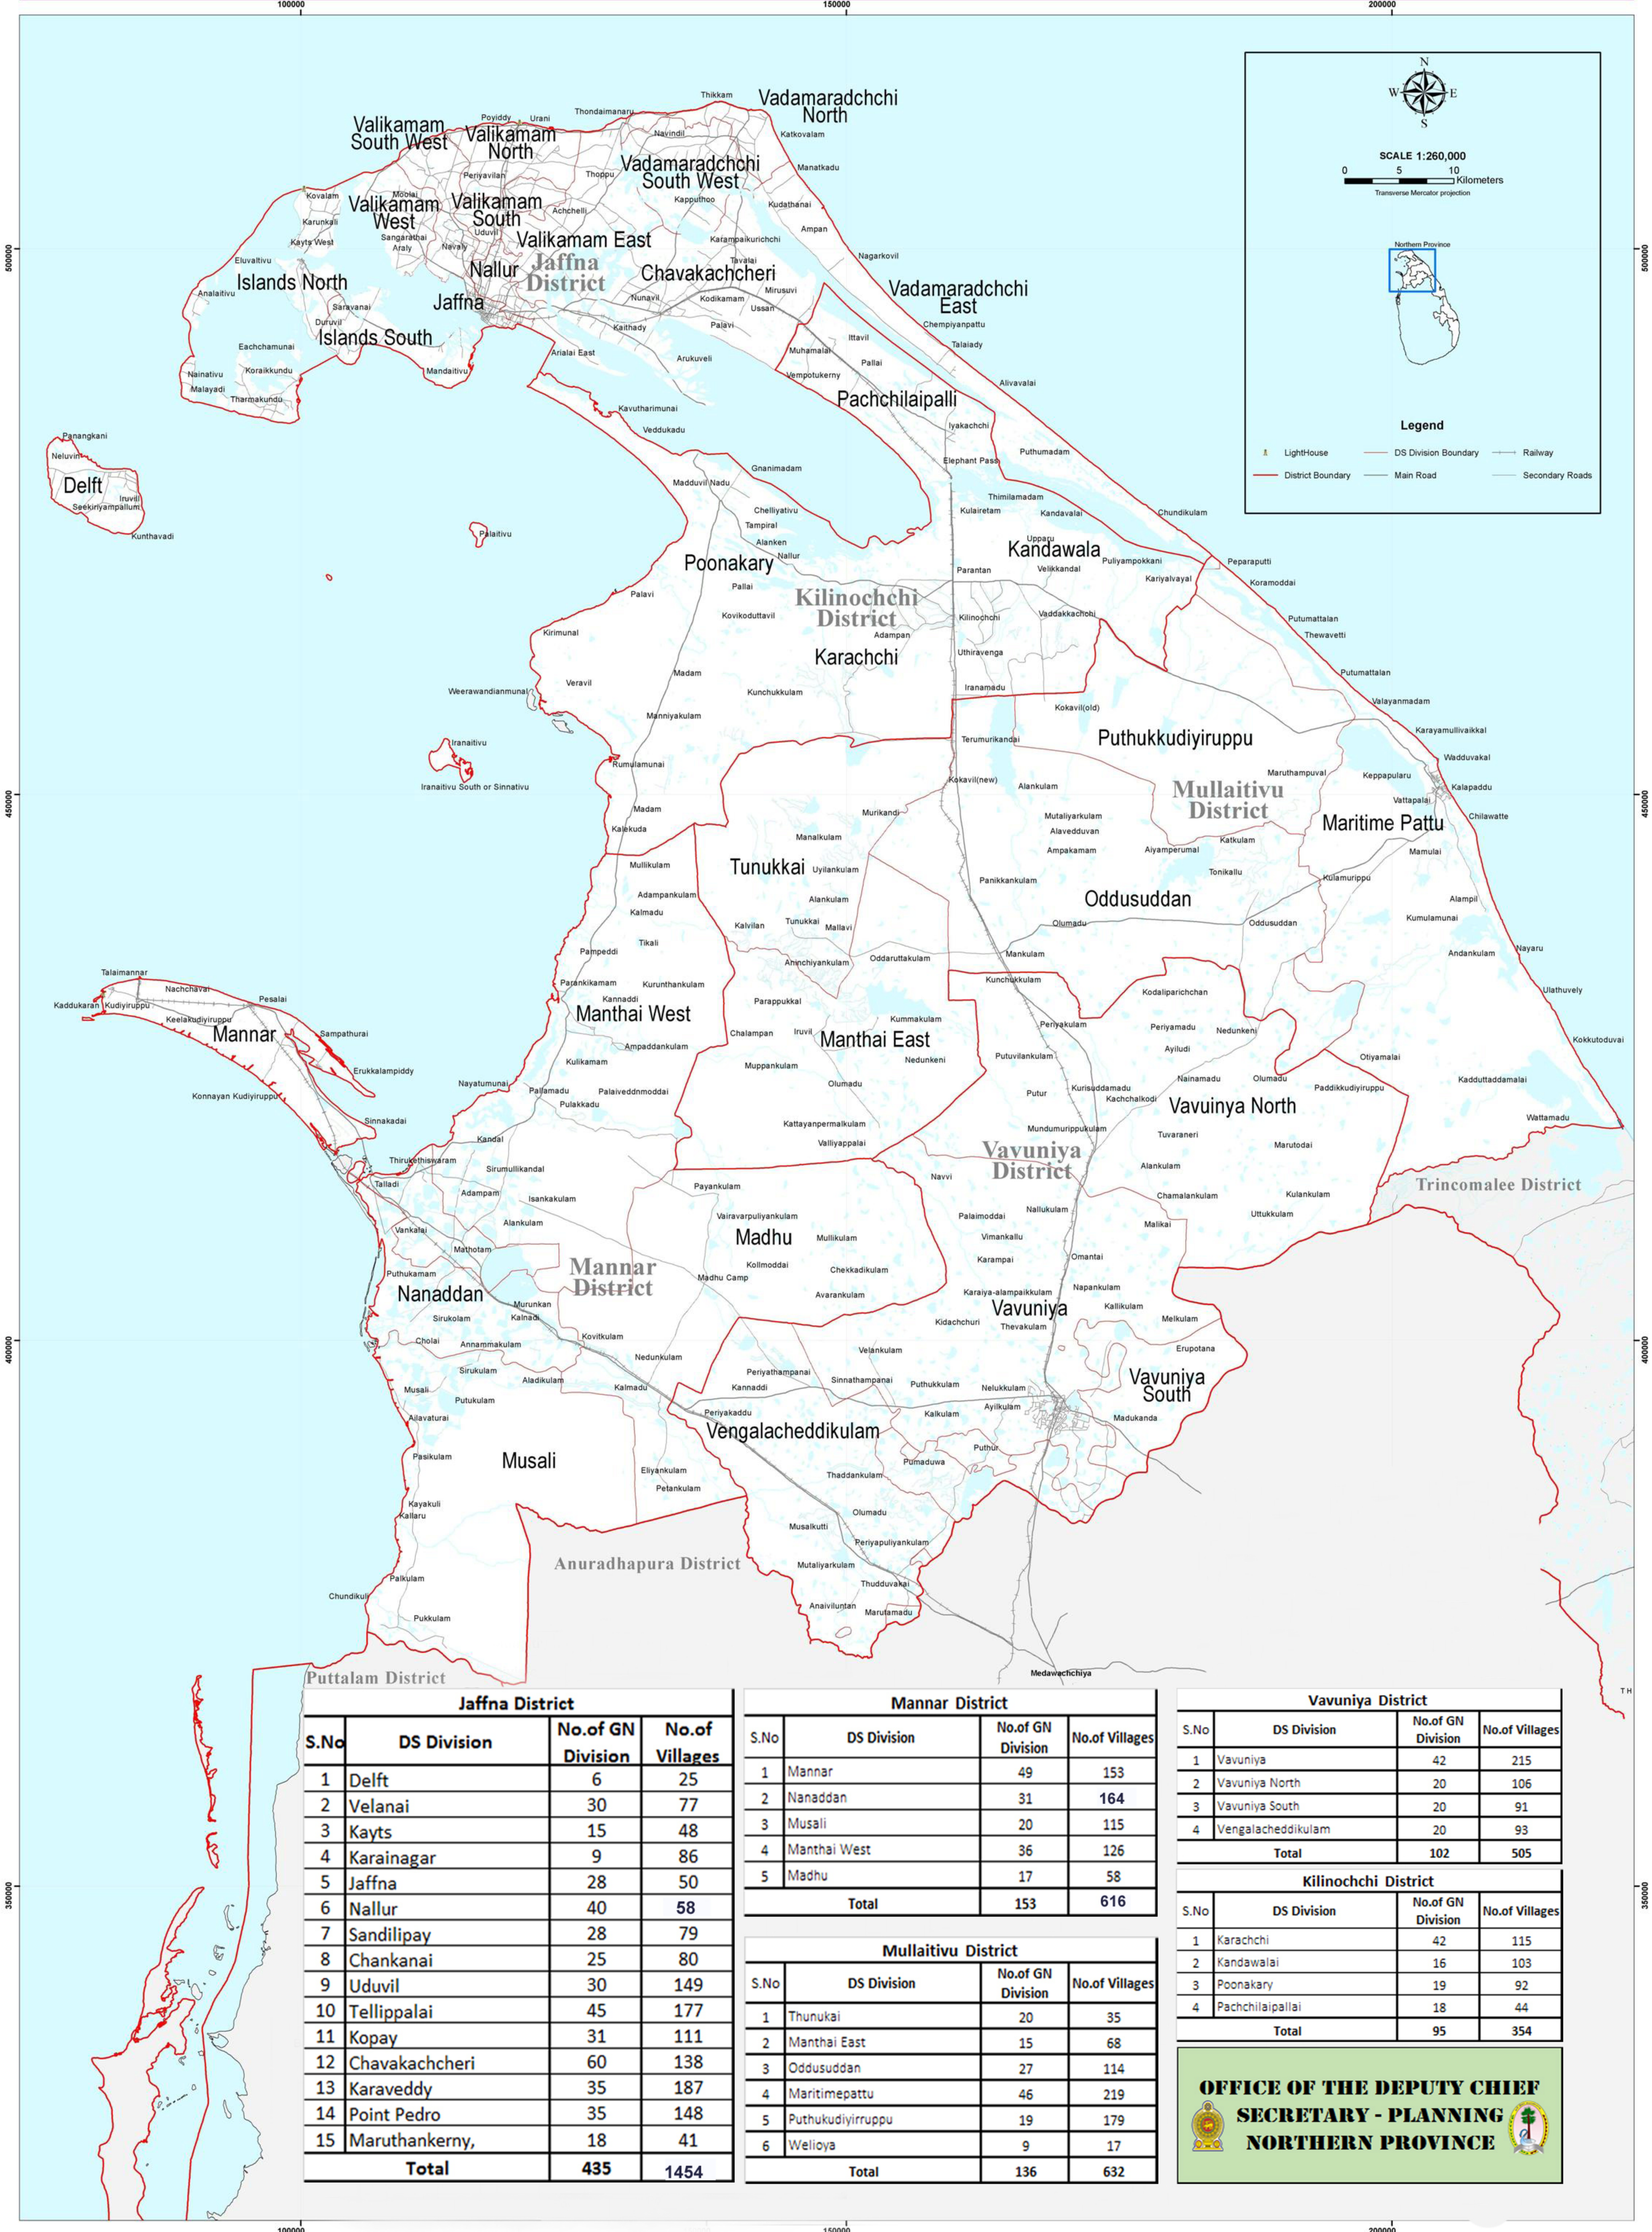

I wish to extend my sincere thanks and appreciation for the support, rendered by the respective District Secretaries, Provincial Secretaries, Heads of Departments, Divisional Secretaries, Planning Directors and the Heads of Central Agencies for furnishing the relevant information.

Further, I wish to express my sincere thanks to the Deputy Chief Secretary, Planning and the officers of the Deputy Chief Secretary Planning who have actively and timely contributed cooperation at different levels to make this publication effectively and productively.

Suggestions and opinions are keenly welcomed for further improvement and enrichment of the future publications of the Northern Province.

A. PATHINATHAN
Chief Secretary
Northern Province

OFFICE OF THE DEPUTY CHIEF SECRETARY - PLANNING NORTHERN PROVINCE

OVER VIEW OF THE NORTHERN PROVINCE

1. Land and Soil

The Northern Province consists of five districts namely, Jaffna, Kilinochchi, Mannar, Mullaitivu, and Vavuniya. There are 34 Divisional Secretariats and 34 Local Authorities such as of one Municipal Council, 5 Urban Councils and 28 Pradhasiya Sabas administratively rendering services to the public. It covers an area of **8,983.59** sq.km exactly 13.66% of the total area of the island. This region has a forest cover of 1,981.30 sq.km. Inland water area covers **415.15** sq.km.

The land of the region is relatively flat and of low elevation towards the coast. Six major soil groups have been identified in the region. The dominant group of soil in the region is Reddish Brown Earth (RBE). The association of Low Humic Gley (LHG) with RBE soil (92%) is well suited for paddy cultivation. Red Yellow Latesol, Non-Calcic Brown soil and Grumusol exist in Kilinochchi, Jaffna and Mannar areas respectively. The RBE has low organic matter content and the nitrogen and phosphorus status is usually low while potassium status varies from medium to low. These soils are very well supplied in calcium and magnesium, and they have a very good cation exchange capacity. By tropical standards, these soils could be considered as having a very good chemical quality. The other soil types are alluvial of variable drainage and texture (4%), Rock Knob Plain (2%), Erosion remnants (1%) and Solodized Solonets & Solonchaks (1%).

2. Weather and Climate

Sri Lanka enjoys a typical monsoonal climate. The Northern Province tends to be hot and dry in the dry season (February to September), and moderately cool and wet in the wet season (October to January). The province's climate is the tropical kind and therefore during monsoons there is always the chance of a deluge. In the lowlands the climate is typically tropical with the average temperature is around 28° to 30° for the year. However, on the whole, January is the coolest month and May is the hottest month. Relative humidity varies from 70% during the day to 90% at night. The dry zone of the Sri Lanka is the north and east of the island and this region is affected by the north east monsoon (December to March) and southwest monsoon (June to October). It is thought to be dry because most of the rains fall during the North-East monsoon season.

Annual rainfall is less than 1250 mm in the North West and South east of the Inland. It has two rainy seasons South West Monsoon - May to August, North East Monsoon- November to February

3. Population

The total population of the Northern Province is 1.244 million. 84.5% of the population are living in rural area and only 15.5% of the population are in urban area.

There are 68,473 Women Headed Families living in the Province. This figure stipulated that, War Widows (7,454), Natural, deserted and other Widows (53,565). And also, 19,143 persons are identified as disabled and 1,214 orphans are also living in the Province and 8284 Children's lost their father or Mother. For these categories of special needy people more attention has to be taken for improve their livelihood and standard of living. ✓

4. Un-Employment and Poverty Status

When we compare the unemployment rate with the national, the Northern Province marked 7.7% while the National rate is 4.2% in 2017. At the same time, Poverty Head Count Index of the National 4.1% and the Northern Province indicated 7.7%. The highest poverty level is recorded in Sri Lanka at the district level Kilinochchi and Mullaitivu 18.2% and 12.7% respectively. ✓
Meantime, Jaffna District placed in fifth rank with 7.7%. Northern Province targeted to increase Public Private Partnership in order to increase the employment opportunities. And also pave the way to earn enough income. So our budget considered to create small and medium scale employment opportunities.

5. Economy

The Northern Province is still pre-dominantly an agricultural region having crops, livestock and fisheries as pivotal sub sectors. Reflecting the rapid expansion in income generation activities in the province, share of GDP contributions from the Northern Province increased marginally to 4.2% in 2017 compared with 4.1% in 2016. The Provincial Contribution to the GDP was Rs.497 Bn. in 2016. It comprises three main sectors such as Agriculture 12.6%, Industry 24.6%, services 54.4% and others 8.4% in the provincial economy in 2016.

6. Agriculture

Agriculture is the dominant productive sector in the Northern Province. Result of the rapid development of the agriculture sector in the Northern Province; paddy harvesting reached the level of 156,930 Mt in 2017. 37,176.6 Ha. highlands brought under annual crops, perennial crops and homesteads cultivation in 2017. It has been stresses that, the organic farming in a small level for consumption at this farm gate is appreciates. To enhance this concept, model organic product sales centers established.

7. Livestock

The livestock industry is becoming an important Sector for entrepreneurs in the Northern Province. This sector is considered as a one of the sources of income for the farming society in the region. Several stakeholders i.e. government sector, private sector and NGOs are involved to strengthen the sector through their various projects and programmes. Average milk production reached 112,606 liters per day and milk collection reached 61,651.71 liters per day in 2017. Meat production that is chicken reached to 17,035 Kg. per day, beef reached 9,458 Kg. per day and mutton reached 2,991 Kg. per day. The egg production reached 83,014 nos. per day. It has been believed the Northern Province can reach self-sufficiency in livestock products.

8. Irrigation

Irrigation sector is one of the inter related sector to the agriculture and inland fishing. Therefore, hundred thousands of people in the province are depend on irrigation for their livelihood activities. So, this sector plays a vital role in the Province. 45 medium irrigation schemes and 9 major irrigation schemes come under the Provincial Irrigation sector. In addition to this, there are 4 major tanks that come under the central administration. There are 2,744 tanks and ponds also under minor irrigation. Nearly 77,793 Ha. irrigable areas facilitated for the agriculture production activities by the Department of Irrigation. ✓

9. Education

The Education sector takes significant role to produce the knowledge-based society in Sri Lanka. The number of functional schools has been increased to 1,009 out of 1,080 to serve for 255,725 students with 17,189 teachers in 2017. National programmes such as 1,000 schools and 5,000 feeders primary school programmes are being successfully implemented in the Province. Child friendly approach has been introduced in 500 schools. Technical Laboratory facilities have been provided to 90 schools in the Province. Infrastructure facilities are also continuously provided wherever the requirements are identified through various sources. Therefore, the adult literacy rate increased to 88% and the rate of attendance at schools has also increased to 73% in 2016. Sports and cultural affairs also are included as sub sectors. Further to the secondary and primary education, the higher education, tertiary and vocational education centers are also established in the province such as University of Jaffna, Vavuniya Campus of the University of Jaffna, Open University of Sri Lanka, National Colleges of Education, Teachers' Training Schools, Technical College and Advance Technical Institute being the main educational Institutions in the province.

10. Health

Health is the wealth of our society; therefore, the health sector takes prominent role in the Province. The sector serves through Western and Eastern medicine to the people in the Province. There is one teaching hospital, 4 general hospitals, 10 base hospitals, 54 divisional hospitals 42 primary medical care units, 5 district Ayurvedic hospitals, 17 Ayurvedic Central Dispensaries and 63 free Ayurvedic dispensaries which are functioning in the province. Primary, Secondary health care Institutions, curative as well as preventive institutions are mainly managed by the Provincial Health Department. Maternal and child health care services have been extended to the peripheral areas and human resource capacities also strengthened in 2016. As a result, maternal mortality rate and infant mortality rate have been reduced. Dengue eradication programme and local level nutrition intervention programmes, National Kidney Diseases Prevention Programme are being implemented in the province. ✓

11. Natural Resources Development in the Northern Province

The Northern Province is rich in natural resources in its extensive coastal area, in its dense forests and its mineral deposits. Forests resources are largely intact despite many decades of conflict and form a considerable percentage of the total forest cover in the country. From extensive sand dunes in Jaffna peninsula, to quarry metal and clay for bricks the Province is especially rich in mineral resources needed for construction. The land is generally flat and undulating with no significant elevation, however the highly diverse coastal belt more than compensates. Lagoons, bays, salt flats, wetlands, coral reefs, islands and islets, and estuaries are some of the prominent coastal features that are important both ecologically and economically.

11.1 Water Resources

The Northern Province does not have a single perennial river, and very limited seasonal streams and rivers. Traditional water storage was through built irrigation tanks. The area belongs to the Dry Zone of Sri Lanka with low annual rainfall. The ground water surveys done prior to the conflict indicate that intensive agriculture, especially paddy, cannot be supported without adequate replenishment of surface water storage. Water scarcity is a main constraint in many parts of the province, even for drinking and domestic use.

The major tank cascade systems and existing major irrigation schemes (Iranamadu, Giant's Tank, Pavakkulam, Kalmadu) should be closely examined to determine the productive capacity of agriculture and irrigation, plus quality of drinking water available in the northern districts.

11.2 Marine and Coastal

With 40% of the country's coastline, the province has immense potential for fisheries, aquaculture and tourism. While the existing marine and lagoon-based fishery industry need to be modernized and re-equipped to enable the population to benefit from the rich and under tapped fishing grounds, new aquaculture-based industries could be established to elevate productivity and offer more livelihood options for young people. The main fishery areas are in Jaffna, Mullaitivu and Mannar Districts.

For this purpose the fishery potential, looming threats and important conservation areas (such as sea grass beds and coral reefs) should be surveyed and mapped so that exploitation of the resource is done within the limits of sustainability with adequate emphasis on conservation and protection for future use.

11.3 Mineral Resources

One of the notifiable issues of current importance is construction materials. Out of the construction materials required sand and quarry metal are considerably available in the Province. In addition the province has limestone deposits, clay for bricks and tiles and beach mineral sand. Some scientific option of possible oil deposit off the Gulf of Mannar has not been fully explored yet.

A survey of the quantity and quality of building materials available in the north and their extraction capacity is necessary because of the huge demand brought on by reconstruction and development projects that involve large-scale construction.

11.4 Forests

The North has by far the most extent of dry monsoon forests in any province. The forest cover has remained intact largely despite the conflict and due to lack of development of the province. Kilinochchi, Mullaitivu and Mannar districts are extensively forested, while Vavuniya is partially in forest. Jaffna has no significant forest areas.

12. History and Culture

There are many areas in Jaffna and Mannar of exceptional archaeological value. These include ancient temples and sites mentioned in chronicles, sites of pre-historic significance and old churches and temples of high cultural value to the northern people.

Many of these sites have been recorded in documentation of the Archaeological Department, but there could be many that are unrecorded and undiscovered. The value addition prospects to local tourism is immense, especially sites such as Thiruketheeswaram (Mannar), **Keerimalai, (Jaffna)** Nallur (Jaffna) Nainativu (Jaffna) Madhu Church (Mannar) **and Delft sites.**

TABLE OF CONTENTS

1.	Land, Soil, Forest and Climate	01 - 34
1.1	Land Area of Northern Province By District	01

Massive Infrastructure Developments

The Government is engaged in large scale development of the Infrastructure facilities in the Northern Province. This covers various sectors like education, health, irrigation, road development, telecommunication etc. Under several initiatives many school buildings, hospital buildings and irrigation tanks have been constructed.
